Tips for delivery of HEROES® with a brief introduction to Strength Based Practice:

We want to unleash heroes across Canada! To do this, we need to discover what a hero is, and how they use their gifts & abilities to make a positive impact. For students to discover their inner hero, we will analyse the key elements of HEROES and why they are so important in helping young people understand their innate gifts & abilities. In looking through a strengths-focused lens, we encourage each other to live from our strengths instead of the walls that hold us back. **3 hours**

Tips for delivery of HEROES2:

How do we transition from understanding our gifts & abilities to using them to make a positive impact? In HEROES2, we'll help students discover their personal cause and what it means to create change. Touching on the key elements of H2 will help us as individuals understand what it means to have a personal cause of our own, and how to encourage students to embrace that for themselves. **3 hours**

Tips for delivery of HEROES AT HOME:

To create a true culture of strength for students, we need the support of both school and home. We'll walk through how to facilitate your own HEROES AT HOME session, and what parenting with purpose means for the families of the students you interact with every day. The foundation of confidence, character and integrity starts at home, and we'll journey through how to encourage that in the families of your students. **3 hours**
